Topic: The Well Being and Transition Hub of VHHS (formerly FLO)

Wellbeing and Transition Hub was created to serve the needs of 116 students from the VHHS who may require a more individualised approach to learning.

This hub was developed to identify students' strengths and interests and then assess what skills they need in order to be able achieve their desired goals. This plan would support them in a clear path forward into further education or employment.

The Hub offers a suite of programs that are designed to support students to achieve a meaningful education or employment pathway well beyond their decision to re-engage.

The Wellbeing and Transition Hub comprises a skilled multidisciplinary team of 15 that has qualified educators, case managers, Support staff and industry specialists to support their holistic journey of preparedness for life after school.
